

The SGWorks Core Curriculum is a three-part transformational journey: The Basic Training, Advanced Course, and Leadership Programme. Each level builds on the last to serve one powerful purpose: empowering you to create the results that truly matter in your life. While each level delivers significant value independently, experiencing the full sequence is recommended for exponential impact: transforming potential into lasting habits. Secure your spot and create your life worth living today.

LP 193

The duration of the programme is approximately 90 to 100 days and contains three compulsory training weekends. The weekends are:
